First European Aviation & Flight Schools Congress

Dear Sirs,

We would like to extend an invitation to join us to our

First European Aviation & Flight Schools Congress

May 16 & 17 2014

This event will be held in Speyer, in Germany.

This location is ideal as it offers a great location for a conference. The "Technik Museum" has a large conference facility ("Eventhalle Hangar 10") and hotels are available on site.

The congress starts on Friday, May 16, 2014 at 11:00 am. **The participation is free of charge for you.** We will arrange for food and beverages and for the gala evening on Friday, we only kindly ask you to organize your overnight stay your-self.

We have invited representatives from EASA, LBA, DFS, Jeppesen and AOPA who will be pleased to talk about the most current topics. Journalists from the leading European magazines will also be there, taking the opportunity to meet with all the European Flight Schools and exchange freely about the state of the market. The detailed agenda will be available soon.

For the first time, all the players of the flight training industry will be able to meet in a central location and brainstorm together on the challenges that they face individually, as the situation of the flight schools in Europe has become even more challenging due to the new European rules and standards.

The Continental Motors Group will present their new cost saving concepts, specifically adapted to the training market. After testing a new form of flight training for two years, Zulu Flight Training will present the results of their work. It is a radical departure from what we have all seen in the industry. And it is available to all, today, without competing with your current business model. Combined with the range of Centurion engines, it is a winning proposition for the years to come. The ZULU FMX-Simulator and the flight demonstrators, equipped with Centurion 2.0s engines, will be available for free test flights.

We look forward to welcoming you in Speyer on 16 May and we kindly ask you to send us your registration via the attached form before May, 05, 2014.

Blue Skies and tail winds,

Wolfgang Biereth
Head of Sales EMEA
